

**End Measuring Rods
with spherical ends**

1-24" / 25-600mm Lengths

No. 234 Series 1-24"

**No. 234M Series
25-600mm**

These rods or "standards" are for checking and setting micrometers of 2" capacity and larger, and are also used on machine tools for comparing gages, checking precision measuring tools, for measuring parallel surfaces, and many other types of work.

They are made of special tool steel in rod form with ends hardened and accurately lapped to a spherical radius.

Available plain or with insulated handles to minimize expansion by heat when held in the hand. 1-6" (25-150mm) sizes are 1/4" (6.3mm) diameter; 7-11" (175-275mm) sizes, 3/8" (9.5mm) diameter; 12-24" (300-600mm) sizes are 7/16" (11mm) diameter.

No. 234 Rods shown with or without insulated handles.

NOTE: These standards are the ones used for all micrometers that are furnished with standards. Larger sizes are available on special order.
